

Legislative Day 2012

Thursday, February 23

Be heard in Olympia! Join your trade association in one of the most important days of the year for Landscaping Professionals!

- Find out how critical legislation coming up in the 2012 Legislative Session could affect landscaping in Washington and your business.
- Learn how to become an effective citizen lobbyist - helping you communicate with your elected officials about the issues that matter to you and maximize your impact.
- Visit with your state representatives and let them know what you think about the issues they will be facing this year.
- Help demonstrate the unity and strength of the "Green Industry".

This year's event will start at approximately 9:00 am with a briefing by WALP's lobbyist, Heather Hansen, followed by appointments with your legislators that could run into the afternoon. Therefore, please mark your calendar accordingly and plan on attending. It will be an informative and productive day!

To receive more information about WALP's Legislative Day and how to schedule appointments with your legislators, **please fill out the form below and submit it to the WALP Office no later than Friday, January 27, 2012.**
